## ENDLESS LEATHER

### Product of the week

"Endless Leather" represents the most elegant version of our new Boiserie collection.

Made of natural leather, applied to MDF panels with the support of shaped rubber covers that gives elegance and softness to the product, it is available in a range of 12 colours.

The leathers are dyed with natural products and are protected against humidity and scratches.

Endless Leather is part of "Architectural Surfaces" project which allows the boiserie to be integrated with the different opening systems.

In particular the Brandy door, made on "Surface 56" structure, completes the project.

Designed especially for the Master Bedrooms, it fits perfectly with the other interior home spaces and executive offices.

It is characterized like the entire collection, by maximum design and assembly flexibility.

## CUSTOMER OF THE WEEK

### BREDAQUARANTA

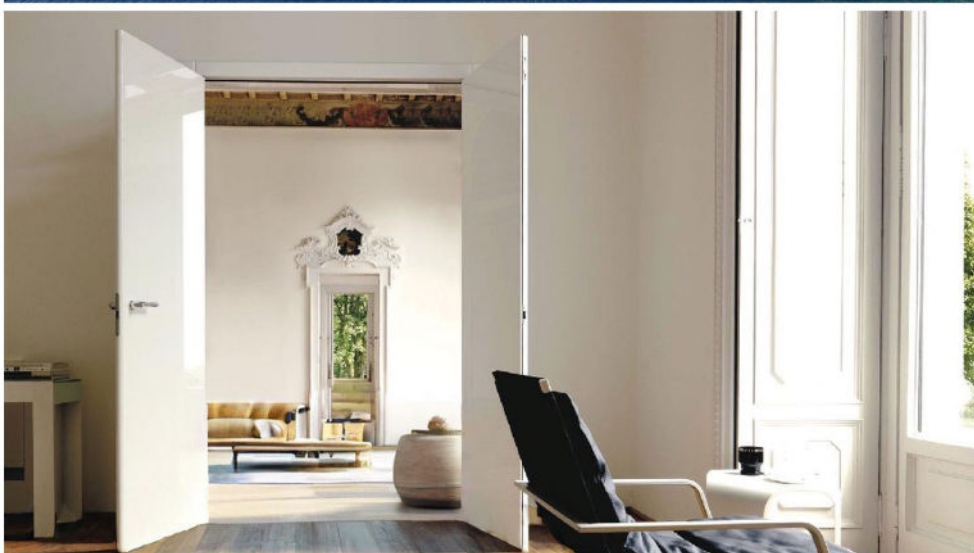

Bredaquaranta Arredo Design is one of our reference partners in the high level furniture sector in the city of Milan and its area.

Since 2008 Bredaquaranta has selected the best brands and interior furnishing solutions to create complete and tailor-made residential projects.

The goal of the company, which is one of the national references in retail, is to help customers to create their ideal home in which quality, aesthetics and functionality combine with maximum harmony.

Bredaquaranta also collaborates with prestigious developers to create turnkey residences.

At the showroom in Via Fatebenefratelli, in the nearby of Brera Academy, you can find our collections of glass/aluminium systems, boiserie and flush-to-the-wall doors.

## PROJECT OF THE WEEK

### REVER IN MONTECARLO

One of the most representative projects that we had the pleasure to carry out last year is definitely the supply of the interior doors of one of the most exclusive villas built on the new artificial peninsula called "Mareterra" in Montecarlo.

The new artificial district was designed, among others, by Renzo Piano.

The residences are currently nearing completion and our doors from the Rever collection designed by Cini Boeri were chosen to furnish the interior spaces of a design project by SDI Interior and realized by Saporiti Italia.

TreP supplied swing and sliding doors, made entirely custom size and in some cases with a sound-absorbing material panel, anti-noise threshold and colour sample laquered.

We are proud to have been selected for this project which gives even more prestige to our collections.

## WINDOW COLLECTION

News the week  
**Window Collection**

Big news from TreP: after the preview of "Window Collection" during the last Design Week, we will present very soon the collection of TreP outdoor windows and doors.

In collaboration with LuxSerr, corners with the new products are being set up at our Mariano Comense showroom and in the design labs in Milan and Lecco.

A new service that we want to offer on Demand to construction companies and designers is the survey measurements and installation.

The range of materials offered is complete: wood, wood aluminum, aluminum and PVC, with also different types of profiles, to meet all tastes.

The collection is already available while the official presentation event is scheduled for March 6th, 2025.
